Data sheet

Professional SquareSpine SFM7714 'Junior'

Finishing solutions that add value to your business

- Produces professional-looking and high quality booklets
- 5 different spine pressures for optimum booklet quality
- Allows printing on the spine
- Edge/corner stapling still possible using Canon finisher
- Productivity: up to 30K booklets per month
- Unique system for Canon printers only

The SFM7714 SquareFold Module: Provides the look and feel of first class booklets. This SquareFold Module gives the booklet a perfectly flat finish with a square spine. By printing on the spine it is possible to reproduce a professional magazine or book-like finish, which considerably enhances booklet appereence.
The standard BST6900 Belt Stacker provides efficient stacking of the booklets.

The optional BST6800-extended output belt allows booklets to be stacked in high production environments without the nee to stop the printer.

The SFM7714 System can be easily set up from the digital display. Full colour brochures, manuals, reports and policy documents, for example, can be quickly printed and finished in one streamlined operation without the need for additional handling or finishing steps.

Obtain the look and feel of first class booklets! Squarefold booklet gives a perfectly flat finish with a square spine.

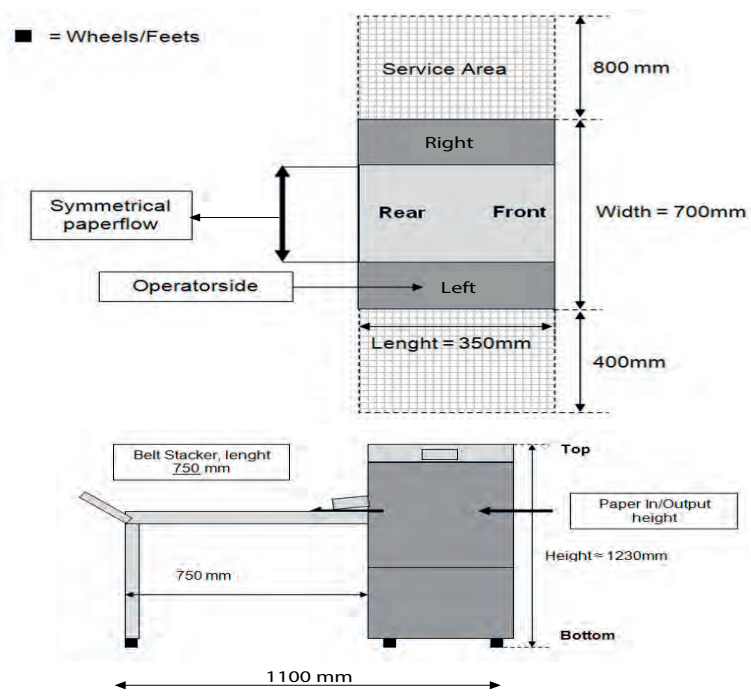

By printing on the spine it is possible to reproduce a professional magazine or book-like finish, which considerably enhances the booklet appearance.

Specially designed for high reliability and long production runs
